

TRINH CONG TRUONG

WAREHOUSE SUPERVISOR

📞 0963 139 263

✉️ Henrytrinhcongtruong@gmail.com

📍 HCM City

PROFESSIONAL SUMMARY

Results-oriented Warehouse Team Leader with nearly 7 years of progressive experience in Logistics and Manufacturing operations, including over 4 years in frontline leadership roles within multinational manufacturing and 3PL environments. Demonstrated expertise in end-to-end warehouse operations, encompassing inbound receiving, inventory control, outbound fulfillment, and production line material supply across large-scale facilities. Strong track record in driving operational efficiency, inventory accuracy, and workforce productivity through disciplined execution, data-driven decision-making, and continuous improvement methodologies. Highly proficient in WMS, SAP, ERP systems, with advanced analytical capability using Excel, SQL, and Power BI to support operational planning and performance monitoring. Recognized for hands-on leadership, cross-functional coordination, and ownership mindset in high-volume, fast-paced warehouse operations.

CORE COMPETENCIES

WORKING EXPERIENCE

OOCL LOGISTICS

Warehouse Supervisor | 06/2026 - Present

CFS Warehouse Operations

- Supervise daily CFS warehouse operations including cargo receiving, storage, consolidation, and container stuffing for export shipments.
- Coordinate cargo flow from 129 suppliers to ensure compliance with OOCL operational procedures and customer SOPs.
- Monitor warehouse activities across Binh Duong, Da Nang, and Linh Xuan (HCMC) to maintain operational efficiency.

Service Provider Management

- Manage warehouse execution handled by 3 logistics service providers: TBS Logistics, SGW Logistics, and DNL Logistics.
- Ensure service quality, operational compliance, and smooth cargo handling for 27 active customers.

Operations Coordination & Reporting

- Coordinate with Customer Service teams, factories, and suppliers to resolve operational issues and maintain shipment schedules.
- Track warehouse KPIs, debit records, and supplier performance to support operational monitoring.
- Develop Power BI dashboards to automate reporting and improve visibility of warehouse operations.

Compliance & Performance

- Ensure warehouse operations comply with safety and security standards including C-TPAT requirements.
- Prepare monthly operational reports covering KPI performance, supplier execution, and warehouse operations.

Key Achievements

- Developed Power BI operational dashboards to improve reporting efficiency and data visibility.
- Coordinated warehouse operations for 27 customers and 129 suppliers across multiple warehouse locations.
- Managed operational performance of three logistics service providers, ensuring stable warehouse operations.

TECHTRONIC INDUSTRIES (TTI)

Assistant Warehouse Supervisor | 04/2023 - 06/2025

Inbound Logistics & Receiving

- Managed daily inbound operations for domestic, internal transfer, and imported shipments.
- Controlled ASN accuracy, receiving validation, and system posting in WMS/ERP.
- Coordinated with procurement, logistics, and suppliers to align inbound schedules and resolve discrepancies.

Warehouse Operations & Inventory Control

- Oversaw warehouse layout, zoning, and space utilization across 15,000 sqm and 15,000+ locations.
- Managed inventory accuracy through cycle counting programs (1.0 / 2.0 / 3.0) and reconciliation processes.
- Controlled NCR handling, root cause analysis, and corrective actions.
- Ensured compliance with FIFO/FEFO, shelf-life, and batch management standards.

Outbound Logistics & Production Support

- Supervised picking, packing, staging, and dispatch activities to meet delivery SLAs.
- Managed material supply for 30-35 production lines per shift, ensuring continuous production flow.
- Coordinated outbound execution with sales, production, logistics teams.

Team Leadership & Compliance

- Led and supervised a team of 30+ warehouse staff, including task assignment, training, and performance control.
- Ensured compliance with HSE, warehouse safety, SOPs, and audit requirements.
- Acted as key warehouse focal point for IQC, QM, NPI, PMC, and production teams.

KEY ACHIEVEMENTS:

- Maintained total daily inventory accuracy, 100% monthly/yearly accuracy.
- Supported stable material supply for high-volume production lines with zero critical shortages.
- Improved warehouse organization and operational efficiency through Lean, 5S, and Kaizen initiatives.
- Reduced inbound discrepancies by strengthening ASN control and reconciliation discipline.

WORKING EXPERIENCE

KERRY LOGISTICS - NGUYEN KIM CENTRAL RETAIL

Warehouse Team Leader | 12/2022 - 04/2023

Warehouse Setup & Process Design

- Participated in the setup of a new warehouse operation covering 10,000 sqm, 8,000 locations, and 20,000+ SKUs.
- Designed warehouse layout, zoning, and material flow to optimize storage and picking efficiency.
- Developed SOPs and Work Instructions for inbound, outbound, and inventory control processes.

Operations & Inventory Management

- Managed daily inbound, outbound, and fulfillment operations under KWMS.
- Conducted cycle counts, stock reconciliation, and inventory adjustments.
- Controlled inventory quality for hold and non-conforming products.

Team Supervision & Coordination

- Supervised warehouse operators and ensured adherence to standard workflows.
- Coordinated with customers, internal teams, and logistics partners to resolve operational issues.
- Implemented and maintained 5S standards.

Key Achievements:

- Successfully launched a new warehouse operation on schedule and within operational requirements.
- Improved workflow clarity and execution consistency through standardized SOPs.
- Maintained stable inventory accuracy through disciplined cycle counting practices.

SCANWELL LOGISTICS VIETNAM (SCW) - JABIL ACCOUNT

Senior Warehouse Executive | 11/2021 - 12/2022

Inbound & Storage Operations

- Coordinated inbound logistics with vendors, transporters and freight forwarders.
- Managed receiving, put-away, and storage operations within WMS environment.
- Controlled inventory across 13,000 sqm, 17,000+ locations and 18,000+ SKUs.

Outbound & Order Fulfillment

- Supervised picking, packing, staging, and export shipment execution.
- Ensured outbound accuracy, compliance with customer requirements.

Operational Control & Reporting

- Conducted inventory reconciliations, cycle counting, and daily operational monitoring.
- Trained warehouse staff on WMS usage, inventory control best practices.
- Prepared operational reports and performance updates for management.

KEY ACHIEVEMENTS:

- Sustained 99% inventory accuracy across high-SKU warehouse operations.
- Reduced outbound errors through process standardization and workflow optimization.
- Strengthened safety, compliance through consistent 5S, 6S execution.

JABIL

Warehouse Staff | 11/2019 - 10/2021

Inbound & Inventory Operations

- Executed receiving of domestic and imported goods, including inspection and documentation checks.
- Performed SAP transactions for inventory updates and import documentation.
- Conducted cycle counting, FIFO control, and shelf-life monitoring.

Outbound & Distribution Support

- Supported picking, staging, and dispatch operations for production and customer orders.
- Operated forklifts in compliance with safety regulations.

KEY ACHIEVEMENTS:

- Maintained high accuracy in SAP inventory posting and physical stock control.
- Contributed to stable warehouse operations through consistent compliance with procedures and safety standards.
